Game Story

Long ago, in a time unknown to us, there existed a world called Ufooria. It was so named because only four different species inhabited its many wonderful lands. All creatures of Ufooria lived together in peace and harmony. One day, four friends; Bop-Louie, Freeon-Leon, Shadast and Gil were out on an adventure. They happened upon what appeared to be a giant crater in order to get a closer look. They stopped at the edge and looked over the side when they saw a shiny object that appeared to be a crystal. All except for Bop-Louie wanted to reach down and grab it. Bop knew that going so close to the edge was too dangerous so he stood safely away from the side. Suddenly, the ground beneath the edge gave way under his friends and they went hurling down into the darkness.

Worried about his friends, our hero, Bop-Louie, carefully tiptoes down into the crater and finds himself in a strange and unknown world and his path is not clear. In sight. His friends have fallen into hidden pitfalls which has caused them to lose their memory.

They must set out to find his friends; Freeon-Leon, Shadast and Gil. Once this is accomplished, he must find them and win because their combined powers are needed to escape from this strange world full of many dangerous monsters, bizarre enemies and mystical lands. On their journey, each character will find a special weapon to help them battle the odds and find their way back to Ufooria.
